NEW PATRIOTIC SONG.
TO ARMS! TO ARMS!!

To Arms! To Arms! the cry goes forth,
The rumour fills the air,
Again in mortal combat meet
The Lion and the Bear.
From countless squadrons of the foe
Resounds the battle-cry,
While from a thousand cannons' mouths
Old England makes reply—
Our soldiers, sailors, volunteers,
Are ready to a man,
To fight for England's honour,
And conquer if they can,
With British arms and men,
We've thrashed the Russians once before,
And so we can again.

THE GREAT WESTERN HOTEL,
FORT, BOMBAY.

I LIVED at the Great Western Hotel with my family for six weeks, and we were very comfortable. The rooms are clean, the food is good, and the Proprietor and his Manager are most civil and obliging. E. SIMPSON BYRNE, Deputy Comptroller-General.

I have stayed at the Great Western Hotel for six days, and have found it by far the most comfortable Hotel I have ever stayed in in Bombay. The rooms are very clean, and a very good Table is kept up. I have much pleasure in giving this testimony in favour of an Establishment which I consider well deserving of support. R. H. QUIGLA, M. D., Surgeon A. M. D.

Mrs. Phillips, child, and self, stayed at the Great Western Hotel for two days; were very well satisfied. Found the Manager and every one connected with the Hotel very obliging. H. L. PHILLIPS, Major, Suffolk Regiment.

Comfortable and well-managed Hotel. R. MACDONALD CHAMBERS, Colonel, 24th Regiment N. I.

Having had a great experience of Bombay Hotels for nearly 30 years I have much pleasure in saying that this is by far the best I have ever stayed at. W. YONGE, Lieut.-Colonel, Retired List.

I fully endorse the above testimonial by Colonel Hughes. The Hotel is by far the best that I have ever stayed at in Bombay, and the attendance is particularly good. R. M. DANE, B.C.S.

I stopped with my wife at the Great Western Hotel, and found everything very comfortable. The Manager was most obliging. C. WEBSTER, Lieut-Colonel, Lanc. Fusiliers.

I have been well satisfied with everything during my stay at the Great Western Hotel, Bombay. ROBERT DOUGLAS, of Kirkaldy, Scotland.

HOCK AND MOSELLE.

THE Wines of Germany are more astringent in character than are all other Wines, and in hot weather very refreshing.

Sparkling Nonpareil Hock	Rs. 43
Do. Muscatel Moselle	Rs. 32
Still Hock. Liebfraumilch	Rs. 33-12
Do. Laubenheimer	Rs. 19-4

MARSALA.

Virgin Wine, the finest ..... Rs. 16-12 per doz.

Sicily being Volcanic its soil abounds with sulphur, the vines are impregnated with this power ful medicinal agent; hence the Wine possesses remarkable blood-purifying properties free from acid, and most pleasant.

MADEIRA.

Black Capsule	Rs. 37-12 per doz.
Red	" 32-8 " "
Blue	" 24-0 " "

In 1852 a disease—the Oïdium—destroyed nearly all the vines and prices became prohibitory, but recent immunity from this scourge has allowed stocks to accumulate, and low prices are now current for this excellent Wine.

CUTLER, PALMER & CO.

TOWER CLOCK FACTORY,
NO. 24 CHURCH-GATE-STREET,
BOMBAY.

THE ABOVE FACTORY has been established with a view principally to manufacturing locally EVERY CLASS of TOWER, TURRET, MILL AND OTHER DESCRIPTIONS or PUBLIC CLOCKS or TIME-PIECES, WITH DIALS from 2 to 40 FEET or MORE in DIAMETER.

Having secured the services of an eminent Engineer and Mechanical Draftsman who for many years held the position of Foreman in one OF THE LARGEST CLOCK FACTORIES IN EUROPE and being provided with all the necessary appliances, such as Lathes for Wheelcutting, Planing, Turning, Rivetting, Stretching and every kind of tool for the Manufacture of Clocks we are now in a position to undertake and turn out the above class of Machinery of WHATEVER DESCRIPTION at the SHORTEST POSSIBLE NOTICE and at MUCH LOWER COST THAN THAT IMPORTED from EUROPE, saying nothing of the cost of Freight, Insurance, Risk of Breakage and LAST BUT NOT LEAST, THE HEAVY LOSS IN STERLING EXCHANGE.

We have made it our standard rule to turn out nothing short of the best workmanship and employ none but the best Material necessary, as will be amply proved by the clocks that have already been manufactured and fixed in place by us.

COMMERCIAL INTELLIGENCE

WEDNESDAY EVENING, MAY 27.

THE London Stock Exchange re-opened yesterday after the holidays, and Consols show a recovery of ½ to 99⅝, while Indian loans are all weaker, the 3½ per cent. Sterling by ½, 4 per cent. Rupee paper by ½, and 4½ per cent. by ½.

In the Mincing-lane markets Rapeseed is reported dull, and partially 6d. per quarter easier. Wheat is also dull, and in No. 2 Club to arrive via Cape a decline of 6d. is quoted. Linseed is unchanged, with the exception of Calcutta 15 per cent. Liverpool quality, in which a recovery of 1s. is noted.

The Liverpool Cotton market does not open till to-day, but from New York prices come unaltered, at 11 cents. for ready Mid-Uplands and 10-95 cents. for August shipment.

Here there is practically nothing doing in Cotton for export. Prices remain nominally unchanged; but sellers and buyers are alike indifferent about doing business, and except for direct up-country buying it would be difficult to account for the extent of the shipments going forward.

In WHEAT and SEEDS we have no change to notice. Arrivals are free and exports under previous contracts correspondingly large, but new purchases are small.

FREIGHTS keep dull, with only a very moderate business doing. Shippers seem pretty well covered for new business and forward do not appear disposed to operate unless tempted by some concession in rate. The steamer Great Northern is reported fixed for Havre, early June loading, at 26s. 3d., and for July loading steamers have been offering at 25s. without finding takers. Current quotations are :—

	Ready.	Forward.
Liverpool	26s. 3d.	26s. 3d.
Open Charter	27s. 6d.	27s. 6d.
Havre	27s. 6d. to 28s. 9d.	26s. 3d. to 27s. 6d.
Antwerp	27s. 6d.	26s. to 27s. 6d.
Marseilles	37s. 6d.	
Trieste-Venice	37s. 6d.	37s. 6d. to 40s.

COAL is very dull, with sellers, but few buyers. Re-sales of Cardiff are offering at Rs. 15.

EXCHANGE has been quiet to a degree. Rates are unaltered, and to that extent the market may be called steady, but credits would probably have been saleable at 1-32d. under the quotation had a fair amount been offered. On the other hand, one of the banks at least was open to call telegraphic for delivery up to the end of the year at 1s. 6⅛d. For ready bills we quote :—

Bank Bills on demand	1s. 6 15-16d.	per rupee.
Do. Telegraphic	1s. 6 29-32d.	"
Do. Three months' sight	1s. 7 1-32d.	"
Credits " " "	1s. 7 3-16d.	"
Francs " " "	2·02½	"

GOVERNMENT PAPER has been rendered a trifle firmer by the recovery advised in Consols. For June delivery sellers are now naming Rs. 95½, and for cash the quotation is Rs. 95⅝ to ½. Fours-and-a-half are up to Rs. 99. From Calcutta the rates come Rs. 95½ and Rs. 98 respectively.

SHARES are steady all round, but not active. We have not heard of any business of importance, and quotations, as a general rule, are unchanged.

TELEGRAMS.

THE FRANCO-CHINESE IMBROGLIO.

(FROM OUR OWN CORRESPONDENT.)

COLOMBO, MAY 27.

Mail news from China reports that the Tientsin negotiations proceed unfavourably. The Chinese are disinclined to carry on the territorial provisions of the Fournier Treaty as agreed.

There is strong public feeling against the cession of Tongking territory.

It is rumoured that the Black Flags refuse to retire across the frontier. They declare that they will contest the entry of the French troops into Langson.

A new French Ambassador has been appointed to replace M. Patenôtre.

Recent correspondence shows that General Négrier's defeat and retreat from Langson were owing to orders sent him to strike a blow in Chinese territory, without supplies and ammunition, which were repeatedly demanded. The ammunition failed, and the troops were compelled to retire.

The Chinese Admiralty Office have requested Captain Lang to return to their service, the attempt to supersede British by German naval drill having completely failed.

Russian volunteer cruisers proceed to Hankow Road tea for Odessa. This is believed to be be indicative of peace.

The appointment of Mr. Hart as British Minister is regarded as indicating the approach of an Anglo-Chinese alliance against Russia and France.

THE CHINA TEA TRADE.

The new tea season is opening. The s.s. Glenroy was the pioneer steamer. Last year seventeen steamers loaded tea at Hankow. This year it is reported that only nine will load.

THE BRITISH AND RUSSIAN FLEETS.

The British fleet in the north continues to watch the Russian vessels.

NEWS FROM KABUL.

(FROM OUR OWN CORRESPONDENT.)

LAHORE, MAY 27.

Recent news-letters from Kabul give another instance of the Amir's prompt method of dealing with those who displease him. Moolakhalil, who with our troops on the Khyber line much trouble during the last Afghan war, is the Amir's latest victim. Moolakhalil went to Kabul lately to ask the Amir to lend him cannon for the purpose of attacking Shahposh kaffirs. The Amir refused his request. Moolah showed his disappointment, and the Amir was so incensed that he ordered his head to be cut.

Another judicial act reported from Kabul is the execution of an orderly sowar formerly in the service of the British Envoy, and recently in the Amir's own service.

Some relations of Colonel Afzul Khan have left the Amir has seized 300 hostages of the people of Kuzni and Khojianis, in order to make them further three years revenue in advance or give loan per family for the new army the Amir is raising.

General Gulam Hyderkhan has succeeded in getting men for two regiments out of the Shinvaris. The impressed soldiers are likely to be sent to Herat.

There is a strike at Peshawur among the transport followers. About one hundred camp stock drivers were sent up with the guns intended for the Amir. When at Rawal Pindi they obtained the promise of the transport officer that they would not be sent beyond Peshawar; but on their arrival at Peshawar they found that instead of the Amir's people taking over charge of the guns and elephants, the local authorities had undertaken the delivery of them at Lundi Kotal. The drivers, who are all down-country men, objected and refused to leave Peshawar. Being Transport, not Commissariat, servants, they could not be punished by the military authorities. Fifteen of the ringleaders have been arrested and taken before the general, where they again refused to go. Ultimately all the hundred were dismissed and railed back to their homes. A fresh batch of men are expected to reach Peshawar from Pindi to take the guns to the spot where the Amir's men are waiting for them.

THE CAPTURE OF THE NISERO CREW.

(FROM OUR OWN CORRESPONDENT.)

SIMLA, MAY 27.

A letter of thanks from Earl Granville has been received here by Colonel Lockhart, C. B., for his exertions regarding the imprisoned crew of the Nisero at Ashcen recently. In addition Colonel Lockhart receives a consideration of one thousand dollars from the Colonial Government of the Straits Settlement.

THE MISSION TO GILGIT.

With reference to Colonel Lockhart's present mission to Gilgit, there is an impression here that the mission goes to practically watch Kashmere on the side towards Afghanistan.

The twenty-first annual ordinary general meeting of the shareholders of Messrs. Treacher and Company was held yesterday afternoon, Mr. Alex. Mackenzie in the chair. A very satisfactory report was presented by the directors as to the business done by the company during the year ending 31st March last. The report and accounts were adopted, and a dividend of Rs. 110 per share, amounting to 22 per cent., was declared. The appointment of Mr. C. A. Winter as a director in the place of Mr. W. Prescott, who has gone home, was confirmed, and Mr. W. Richardson was re-elected a director. A cordial vote of thanks was tendered to the chairman the directors, and the employés of the company for, their successful management of its affairs during the past year.

Representations in favour of the Padroado are being made on all sides. Lately the Municipal Chamber of Bardez (Goa) telegraphed to the Portuguese Consul in Bombay, declaring their adherence to the resolutions passed at the public meeting in the Framjee Cowasjee Institute on the 12th April, and promising to lay before His Majesty the King of Portugal their petition for the preservation of the Padroado. This has been followed by another from the higher ratepayers representing the Municipal Chamber of Salsette.

The address presented by the British residents of Constantinople to the Earl of Dufferin, on his lordship's departure from Constantinople, was, by the decision of the subscribers, forwarded to Messrs. Marcus Ward and Co., for the purpose of being illuminated on vellum and framed in a manner suitable to the occasion. A committee was appointed for carrying out the decision of the subscribers, and the address has reached Constantinople, where it has been deposited for a few days at the British Consulate at Galata, so that those English residents who signed the preparatory address, as well as those who wish now to add their names, may have an opportunity of doing so.

The *Times of Egypt* of the 13th inst. announced:—Mr. West, the new Procureur-General from India, leaves for England to-day, and hopes to return in about three weeks' time. We understand, however, that Mr. West's business at home, which is believed to be connected with the proposed new press law, may detain him a fortnight longer in Europe. It is believed Mr. West will visit Paris and London. He is accompanied by His Excellency Tigrane Pasha.

Hitherto there has been a glaring anomaly in a purely inspecting office like the Department of the Chief Engineer for the Goa Railway being located far away from the scene of its labours. Senhor Guimaraes, the Acting Governor-General, having perceived the manifest disadvantage of such an arrangement, has ordered the removal of the head-quarters of the Engineers' Department from Panjim to Marmagoa. A correspondent suggests that the large staff of inspectors and overseers who spent almost all their time in Panjim may now receive their pay with a consciousness that they are nearer to the scene of their work, although they may be as little useful as they have been while passing their time in the capital city.

The marriage of Earl de Grey, eldest son of the Marquis of Ripon, with Constance Gladys, Countess of Lonsdale, widow of the late Earl of Lonsdale, was solemnised on May 7, at the church of St. Martin's-in-the-Fields by the Vicar, the Rev. Mr. Humphreys. The wedding was strictly private, only the immediate relatives of the bride and bridegroom being present, and among these was the Marquis of Ripon. The bride wore a light brown homespun dress, with a bronze velvet jacket and bonnet to match. The register was signed by the Earl of Pembroke and the Marquis of Ripon. At the conclusion of the ceremony Lord and Lady De Grey left the church by the side-door and drove away in a brougham. *Truth* mentions that it was particularly desired to keep the ceremony private, and the society journals were requested not to announce where it was to take place. The honeymoon is to be passed at Panshanger, Lord Cowper's place, near Hertford. Lord and Lady de Grey were expected to visit Lord and Lady Ripon at Studley-Royal during the Whitsuntide holidays.

The *World* says that there can be no doubt that by the courage, the cleverness, and the *bonhommie* displayed during his recent visit to Ireland, the Prince of Wales has crowned the capitol of that edifice of popularity which he has been steadily building up during the last decade.

The following amusing little anecdote is told by a Shanghai paper. When the Russian ironclad Minin was at Nagasaki lately, H. M. S. Audacious was there also, and when the Minin went to sea, the Audacious followed. Soon after fast, half speed, or slow, the British ship followed the Russian, until the latter cast anchor to see what his friend who was so very attentive would do next. Almost at once the Audacious dropped her anchor about half-a-mile, just about the distance she had preserved at sea, astern of the Minin. While the captain and officers of the latter were waiting for the next move, the Englishman ran up a signal to the Russian—"Come on board to dinner." But he did not.

The *World*, discussing the question "Will the Cabinet break up?" says that although the Cabinet may break up over the renewal of the Coercion Act, the odds are against its doing so; and it cannot be said too strongly that a united Cabinet means the confirmation of Mr. Gladstone in office. He may talk about resigning, he may intend to resign; but while he can hold the Liberal party together ne will do nothing of the sort; and those who know him better than, on this particular matter, he knows himself, anticipate that, when the general election comes, the Prime Minister will be at his old post, and will be as much a candidate for the confidence of the country as at the general election of five years ago.

American institutions are spreading in England. A farmer's wife in Staffordshire has just attained notoriety in a thoroughly Western manner. Resolved to administer a vigorous check to her daughter's courting proclivities, she followed on horseback the loving couple along the road leading to Macclesfield. Overtaking them, she laid about them a heavy horsewhip. The chastisement completed, the irate mother found to her horror that she had thrashed someone else's daughter, and she is now face to face with police proceedings, and an action for damages, the girl's face being severely cut and lacerated while she has also sustained a shock from which she has not yet recovered. The affair has caused the greatest amusement, the parties being well known.

If the news which a correspondent of the *Matin* telegraphs from Madrid be true, the cholera, which has been trading for some time rather upon past prestige than its actual powers for mischief, has at length been completely disarmed by science. It made its appearance at Alcira, a town in Valentia, last week, it appears; and Dr. Ferran, who claims to have discovered an anti-cholera vaccine, at once inoculated a large number of the townspeople—some 2,000, it is said—with it. So far not one of them has been attacked by the disease. On the other hand, two students of the college who refused the offer of the doctor's services, are now down with cholera; and while their fellow-students, all of whom were inoculated, have escaped. The Alcira community are firmly convinced of the efficacy of Dr. Ferran's system, and are all submitting themselves to his lancet.

A letter has been received from Sister Therese Grigolini, dated February 3, written with a pencil on cotton pocket-handkerchief. It briefly narrates the terrible sufferings of herself and the other sisters and priests, imprisoned by the Mahdi at Omdurman, and suggests a plan to relieve them, which it is not prudent to publish, but which is very hopeful. Another letter, dated February 23, was received at Cairo on March 18, sent by M. Santoni. This last contains categorical replies to certain questions, which it is not prudent to publish. M. Santoni went first to Abu Gussi, thence *viâ* Kordofan to Ambiliba, thence to Omdurman. At that place he actually saw and conversed with the priests and sisters. He was arrested and imprisoned as an English spy, but was subsequently released, and worked his way back with the letter of Sister Therese, sewn in a fold of his shirt.

Men who are intellectually great are not always as physically well-developed as Prince Bismarck, who is the tallest, and probably also the most stalwart, of first-class European statesmen. On one of the posts of the door of the study at Friedrichsruhe the height of each member of the Imperial Chancellor's family was solemnly registered on the last day of 1880 by the Chancellor himself; and the pencilled inscriptions, which are still to be seen there, are as follows, the measurements being given in centimetres:—Prince Bismarck, 6 ft. 2 in.; Herbert, 6 ft. 1½ in.; Bill (Count William), 6 ft. 0½ in.; Rantzau (Count Rantzau, the Prince's son-in-law), 5 ft. 10½ in.; Johanna (Princess Bismarck), "standing on tiptoe," 5 ft. 8½ in.; Marie (Countess Rantzau), 5 ft. 8 in. If we put aside, as unworthy of credence, the ungallant assertion that Princess Bismarck cheated the measurer, we find that the average height of the six members of the family is slightly over 5 ft. 11 in. A well-grown race the Bismarcks, evidently.

A remarkable and interesting ceremony was recently performed at Antananarivo. It was the Fandrvana, or Festival of the Bath. The Queen was carried into a hall in a palanquin borne by four officers, and when she had taken her seat on the throne, the choir sang an English hymn. All the Malagasy present were dressed in home-made fabrics which looked very picturesque. A large earthen jar, filled with hot water, having been conveyed to an adjacent apartment, the Queen retired, and, after her bath, she returned and resumed her seat. The Malagasy nobles then filed, three at a time, before the throne; after which Mr. Vice-Consul Pickersgill, on behalf of the foreign community, made a congratulatory speech to Her Majesty. Subsequently the guests were all served with refreshments, which chiefly consisted of rice mixed with honey, called "sosoa." All present, according to custom, handed the Queen the "hasina" or Crown fee. The Prime Minister wound up the proceedings with a patriotic speech, which excited much enthusiasm among the natives.

Over a hundred tailoring establishments have been obliged to close their doors in Paris, the journeymen having struck work. Ninepence an hour is the rate of pay on which the Parisian "ninth of a man" insists, and this is a penny more than the employers are willing to concede. The number of the men who have stopped work is about 7,000, and it is feared that the strike will become general. To the Parisian "elegant" the prolonged interruption of so useful and necessary as industry in the city he adorns is a matter of indifference. He has all his clothes made in London. He finds in the business or pleasures of "le sport" plenty of occasions to visit England; and Poole and the other fashionable London tailors send their representatives periodically to Paris to take the orders of those customers whom no attraction that perfidious Albion has to offer ever tempts across the channel. There are several English tailors established in Paris; but they are not patronised by the cream of the "pschutteux," as the clothes must be made in London to be absolutely "chic." Tailor-cut "amazones" are now much affected by the Parisian ladies, and the English establishments have a practical monopoly of this branch of the business.

Private letters from Canada seem to throw some light on the immediate cause of the outbreak of hostilities between the Government forces and the half-breeds. It is stated that at the outset of the agitation a number of white settlers of the Prince Albert district made common cause with the half-breeds, and united with them in drawing up a bill of rights setting forth their demands for land grants and local self-government. This document was submitted to competent legal authority, and the claims put forward in it pronounced to be just and equitable. Fortified with this assurance, the half-breeds of the North Saskatchewan assembled for the purpose of laying their demands before the authorities, who on their part called out the police to overawe the malcontents. The half-breeds refrained from any action, and the first shot is now stated to have been fired by the police. If this is true, it is very much to be regretted. As we have already remarked, the details of the events which led up to the outbreak have never yet been published. This reticence, coupled with the tenour of the information coming through private channels, makes an impartial inquiry into all the circumstances attending it a matter of urgency. It would also be good policy.

BOMBAY.

TO-DAY.

Election of two Trustees of the Port, Chamber of Commerce, 10 a. m. to 6 p.m.

Vessels arrived.—The following vessels arrived yesterday:—Merka (s), from Zanzibar; and Clan Mackenzie (s), Liverpool.

Vessels sailed.—The following vessels sailed yesterday:—City of Venice (s), for Liverpool; Madura (s), Calcutta Coasts; and Bhowruggur (s), Bhowruggur.

A Vagrant.—Henry Barter, a European, was yesterday declared a vagrant by Mr. Dossabhoy Framjee, and was ordered to be sent to the Government Workhouse.

Stealing a Pair of Shoes.—Yesterday before Mr. Webb, at the Fort Police Court, Dakoo Pandoo was charged with stealing a pair of shoes belonging to Joosub Rahimtula. The accused, a girl 10 years of age, who said that on the day of the outrage, after playing with the child in the street, she was returning home about 6 o'clock. She carried the child on her hip. When she came near the agiary in Parsee Bazaar-gate-street, the accused came up to her and hit Seereenbai on both eyes. He then snatched the child and threw her on the ground. Seereenbai became unconscious, witness raised an alarm, and a Parsee gentleman who was passing in a carriage got out and came to her. Witness then ran away home. Bowanidass Feerimull, a broker, said whilst returning home on the evening of the 12th instant through Bazaar-gate-street, he saw the accused hold a child by its legs and throw it forcibly on the ground. Witness called out that the accused was killing the child. Several Parsees ran out from agiary and seized the accused. A charge was then framed, and accused pleaded guilty, saying he had been under the influence of ganja. The magistrate remarked to the accused that this was the consequence of indulgence in a thing called drug. If the child had died, he would have been charged with murder. His worship then sentenced him to six months' rigorous imprisonment in the Common Jail.

THE DEATHS FROM MEPHITIC GAS

The adjourned inquest was resumed yesterday by Dr. T. Blaney, at his bungalow, Clare-road, Byculla, into the circumstances connected with the deaths of Bhamoo Gunnoo, Luximon Kooshaba, and Thowjee Nowjee, labourers, who died from mephitic gas-poison, inhaled while engaged in cleaning out the Clerk-road sewer.

Mr. Gilbert, of Messrs. Payne, Gilbert, and Sayani, appeared to watch the proceedings on behalf of the drainage contractor, Mr. Nagoo Sayaji.

Mr. Thomas West, the plumber in the service of the Municipality, was examined. He said that he was requested to construct the drain at the junction of Clerk-road and De Lisle-road with the manhole in the ovoid sewer at that place, by an official order dated the 30th April, from the office of the Executive Engineer of the Municipality. He had carried out this order. The sewage that ran in was not offensive; in quantity it was about a quarter of a nine-inch pipe. The drain which he connected was a nine-inch pipe.

Mr. Albert George Hallums, an inspector in the Health Department, could not say whether the Clerk-road sewer were completed. There was a connection with the sewer at the junction of the Clerk and DeLisle roads. It was a pipe drain, and served the north and south portions of the Clerk-road, a population of 957 persons. He only knew of the connection having been made two days after the deaths of the three deceased. There were written rules for cleaning out sewers, for the guidance of inspectors and sub-inspectors of his department. He produced a copy of these rules, which had been supplied to him. No instructions were sent to him that the Clerk-road extension sewer was to be cleaned out. That sewer was not in charge of the Health Department, but in his ward (E. ward). The inspectors were told that before the work of cleaning out a sewer commenced, one man should be sent down with a spade to ascertain the depth of the sludge and the degree of offensiveness of the sewage. If his report were favourable, then the men were sent down.

Mr. Nagoo Sayajee, the drainage contractor, said he was a general contractor of works, and had been so engaged for the last thirty-two years. He had constructed three ovoid sewers for the Municipality—one in Cammateepoora, the Clerk-road sewer, and the Clerk-road extension sewer. The Clerk-road extension sewer was finished; it only required to be cleaned out. The Clerk-road sewer only contained sewage. He did not know when it began to work as a sewer. When he commenced to clean it, he found sewage in it. He entrusted the cleaning of the sewer to two of his muccadums. The sewer was being cleaned out for ten or twelve days, and he visited it on three occasions. He was there at 9 a.m. on the day the three men died. He saw seven manholes open, but the men had not then come to work. He received no intimation from the Engineer that the sewer connection was to be made; nor did he receive instructions to remove the *débris*, in order to allow the sewage to flow freely. After he had completed the sewer about the 1st instant, Mr. Burjorjee, the inspector in charge of the works, told him to remove the *débris* from the sewer, as he had to go and lay it on the rice fields and in yeards.

Mr. Rienzi Waiton, the Executive Engineer of the Municipality in charge of the drainage works, said he had not been able to go down into the Clerk-road extension sewer at the place where the three deceased persons were said to have fallen; the depth of liquid at that spot was too great to admit of it. That spot was within two hundred feet of the Dhoble-wada drain connections. A portion of the sewage from the Dhoble-wada drain flowed into the Clerk-road sewer ran back about thirty or forty feet along the Clerk-road extension sewer, and of course it made the Clerk-road extension sewer more offensive. It was important that the sewers which formerly went into a side drain at the corner of the De Lisle-road should be connected with the Clerk-road sewer as speedily as possible, because its gradient led it to a point below the drain into which it discharged. It must have been receiving in that way for many years. There was also a nine-inch water main running across it. He discovered a built manhole about a foot high, made of brick and supported on each side by eighteen inches or two feet of mud, about midway between the manhole by which the workmen entered and the manhole next to the Dhoble-wada connection. This bund retarded the flow of the liquid of the drain. He believed it was built by the contractor for construction purposes. It was customary to build these bunds in constructing a drain.

The Coroner then summed up briefly the whole of the evidence adduced.

The jury, after a deliberation of about half an hour, returned the following verdict:—"That the death of the three deceased was caused by inhalation of sewer-air while cleaning out the Clerk-road extension sewer. The jury are of opinion that the ventilation provided for the Clerk-road extension sewer is quite insufficient; that all the precautions that were practicable to prevent danger to life were not taken by the Engineering Department; that the pipe sewer connection should not have been made with the Clerk-road extension sewer before the work was completed and the *débris* removed; and that the tests in use by the Health Department are not sufficient and require amendment."

BOMBAY TOWN COUNCIL.

Sir Frank Souter presided yesterday at the meeting of the Town Council. There were present:—Lieut.-Colonel Merewether, Captain Morland, Dr. Peterson, Messrs. Grattan Geary, R. N. Khote, M. N. Banajee, Nanabhoy Byramjee Jeejeebhoy, and Dossabhoy Framjee.

Arcading in Hornby-row.

The Council further considered an application from Mr. Dinshaw Manockjee Petit for permission to arcade over the footpath in front of his house, Hornby-road.

The Municipal Commissioner, pointing out that the general question was one of considerable architectural importance in Bombay, mentioned several issues which should be decided on. These included—(1) Should the arcade at the north of Church-gate-street be only 16 feet wide as contemplated, or 24 feet; (2) should the width of the arcade be uniform throughout; (3) should uniformity of architectural features be insisted upon, whether iron or in stone, and should any protection be allowed beyond the arcade, and if to what extent? Mr. Olivant reminded the Council that in all probability their decision in the present instance would affect other instances as these came before them. With regard to the first issue, he should certainly recommend that the arcading should be extended to the edge of the footpath, and that this ought not to be interrupted.

Mr. Geary considered the uniformity of height would also be required. He did not think that uniformity in material should be insisted on, as this might exclude iron, which was much cheaper and would give greater advantages in point of light.

It was decided to postpone any decision until the Municipal Commissioner had presented a plan of the row, in which the position of the trees should also be shown.

Purchase of a chawl.

Sanction was given, on a letter from the Municipal Commissioner, to the purchase from Mr. Ramjee Nagoojee Koly of a chawl at Agripada, at a cost of Rs. 6,000, for providing accommodation for gowlies working in the neighbourhood in Agripada, the cost to be debited to the grant (Rs. 6,237) sanctioned by the Corporation on the 10th May, for constructing the chawl.

The Vehar water-works memorial.

On the consideration of the report to the Corporation from the Town Council on the subject of a permanent record of the inception and carrying out of the Vehar water-works, it was agreed on the motion of Mr. Khote, seconded by Mr. Dossabhoy Framjee, "That the Corporation be recommended to sanction a grant from surplus cash-balance, being the estimated cost of providing the memorial at Vehar referred to in the Corporation's resolution No. 1655 of 1883, and that the following inscription in English, Marathi, Gujerati, and Urdu, be placed on a tablet at Vehar on each of the four sides of such memorial:—Captain James Henry Graham Crawford, of the Bombay Engineers, was the author of the Vehar water-works scheme. His plans were afterwards developed and worked out by Lieutenant Alfred de Lisle, of the same corps, and Mr. Henry Conybeare, C. E. The work was begun in 1856, and finished in March, 1860. Mr. Walker, C. E., being engineer in charge and Messrs. Brayson, of Champney, the contractors. The total original cost was Rs. 50,00,000, which was borne at first by the Government of Bombay and afterwards by the Bombay Municipality, by whom this stone has been set up to record the services of Captain Crawford and of those who carried out his project.'"

The Council then adjourned.

THE NATIVE PRESS.

The Thakore of Wadhwan.

We are glad to be able to inform our readers that Kalubhai, the younger brother of the late Thakore of Wadhwan, has been installed on the *gadee* in place of his deceased brother. The administration will be carried on by the new Thakore, in conjunction with Rao Bahadoor Gunputrow N. Laud, the Dewan. We are sure the Chief will follow in the footsteps of his brother, who secured the love of his subjects by his wise administration.—*Gujerat Mitra.*

The new veterinary college.

We have much informed that on account of instructions from the Supreme Government to curtail expenses, the Government of Bombay will not be able to lend its support to the new Veterinary College. This step is open to serious objection. The so-called economy is misdirected. The work is so useful that it should not be delayed one single day, if possible. We do not, again, see the wisdom of letting a project go adrift for want of Government support. The curtailing of expenditure must be at the right end.—*Jam-i-Jamshed.*

A BRUTAL ASSAULT UNDER THE INFLUENCE OF GANJA.

At the Fort Police Court yesterday, before Mr. Ryan, Khudabux Allibux was charged on remand with having voluntarily caused hurt to Seereenbai, a child 2½ years old, on the 12th inst. The facts of this case have been reported before, but evidence adduced yesterday was to the effect that the assault was not so serious as was made out at the time. The child suffered from slight concussion of the brain, but is now all right. It was stated in court that the father of the child did not prosecute, as he appeared afraid of somebody. The police therefore took up the matter. The first witness called was Khursedbai, a girl 10 years of age, who said that on the day of the outrage, after playing with the child in the street, she was returning home about 6 o'clock. She carried the child on her hip. When she came near the agiary in Parsee Bazaar-gate-street, the accused came up to her and hit Seereenbai on both eyes. He then snatched the child and threw her on the ground. Seereenbai became unconscious, witness raised an alarm, and a Parsee gentleman who was passing in a carriage got out and came to her. MEETING OF PUBLIC COMPANIES.

THE BUDNEIRA MANUFACTURING COMPANY.

An extraordinary general meeting of this company was held yesterday afternoon in the Fort, when Mr. M. A. D'Quadros took the chair.

Resolutions were passed voluntarily winding up the company; appointing Messrs. Hormusjee Bezonjee Dantra, Jehangir Hormusjee, and M. A. D'Quadros at a remuneration of Rs. 100 each; arranging that the Borar Manufacturing Company take over the property, assets, and business of the Budneira Manufacturing Co., in liquidation, from the 1st June, 1884, and become liable to carry out and fulfil all their agreements, interests, and obligations, and that the said Budneira Co. and its liquidators do all things necessary for giving effect to the agreement. The thanks of the shareholders were voted to the directors for the manner in which they had conducted the affairs of the company.

TREACHER AND COMPANY, LIMITED.

The twenty-first annual ordinary general meeting of the shareholders of this company was held yesterday afternoon, Mr. Alex. Mackenzie presiding. The directors' report and statement of accounts were taken as read. The report has already appeared in these columns.

It was proposed by Mr. Fred King, and seconded by Mr. Tribhowandas Nathoobhoy, that the report and accounts for the year ending 31st March, 1885, be received and adopted.

The proposition was carried unanimously.

On the motion of Mr. W. G. Taylor, seconded by Mr. Shapurjee Jeewajee, it was resolved that a dividend of Rs. 110 per share for the past year be declared payable on and after the 10th June, 1885.

The chairman then said that during the past year their co-director, Mr. Prescott, went home, and the board had very great pleasure in asking Mr. Winter to take his place. The chairman said that he would now ask the shareholders to confirm the appointment of Mr. Winter as a director of the company.

It was then proposed by Mr. R. H. Baker, and seconded by Mr. Alfred King that the appointment of Mr. C. A. Winter, as a director of the company, be confirmed.

The motion was carried unanimously.

Mr. W. Richardson was re-elected a director of the company on the motion of Mr. Fred King, seconded by Mr. R. H. Morgan.

Mr. Baker moved that Mr. Robert Clark and Mr. E. C. Monod be elected auditors for the ensuing year at a remuneration of Rs. 500 each.

The proposition having been seconded by Mr. Shapurjee Jeewajee, was carried unanimously.

It was proposed by Mr. Baker, and seconded by Mr. Taylor, that a bonus of half a month's pay be distributed to such of the employés as the directors may think fit.

The motion was carried *nem. con.* A vote of thanks to the chairman, directors, and the employés of the company for their successful management during the year was cordially carried.

The proceedings then terminated.

THACKER AND CO., LIMITED.

The following is the report to be presented at the annual meeting of the shareholders of Thacker and Co., Limited, by the directors, in presenting their annual report, are glad to be able to show a very satisfactory result of the years' working. The amount of business done shows a steady increase, and the aggregate is double what it was in the Company's first years, 1878-9. Including Rs. 1,718-8-9 brought forward from last year, the balance at credit of profit and loss is Rs. 30,986-4-6, which the directors propose to appropriate as under:—Dividend, 15 per cent., Rs. 22,500; reserve fund (increasing it to Rs. 50,000) Rs. 5,000; and balance forward, Rs. 1,236-4-6. With the approval of the shareholders the directors propose also to distribute out of the balance the sum of Rs. 1,000 as a bonus to the assistants and clerks, in recognition of the satisfactory manner in which the business of the Company has been conducted. A deduction of 10 per cent. has been made from the value of the stock for depreciation, as in former years, although the stock has been carefully re-valued by the Manager, and the directors believe that its value is fairly represented in the amount mentioned in the balance-she

hot climate of Shiraz soon sets in. For many days the must in the jars is frequently agitated by a circular movement of the hand; the great friction thus produced disintegrates the grape-pulp. Day by day the cake, consisting of husks and stalks, which forms on the surface of the wine, becomes thinner and thinner. As the fermentation increases, the heat given out by the ferment ing must makes the room or cellar warmer. The wine intended for keeping is made as fruity as possible by the early removal of the stalks and husks. On about the twenty-fourth day fermentation will have almost ceased, and the wine is roughly cleared. A *lodan*, or grape-hamper, is placed in the mouth of an empty wine-jar; the must is baled into it in bucketfuls. Being thus freed of all remaining husks, stones, and stalks, it is now wine, though of the colour and consistence of thin pea soup. The jars are covered with a rushen top and clayed over, to remain for a year untouched. The refuse is placed in a still and converted into arrack; a third distillation gets it considerably over proof. This arrack is generally in Persia flavoured with fresh anise-seed, and by the same means coloured a pale green. The distillation of the refuse generally more than pays for the cost of making the wine, except the prime cost of the grapes. The next autumn, the wine now old, may be drunk, or placed in carboys for future consumption. It is now clear, of a rich golden colour, sweet, very delicious, and terribly intoxicating. Next year it darkens and becomes drinkable by the connoisseur. Year by year it improves in flavour and does not lose in strength; but the colour fades, as has been stated. Much skill is required in getting a good brew; but if ordinary precautions are observed success is certain. I was fortunate in securing the services of a moollah or priest, to make my wine; and the holy man was an expert truly. He used to enliven his labours by quotations from the Koran and songs from Hafiz. The true *Cholar* grape, of which the best Shiraz wine is made, comes from a place fifty miles off. Wine-making in Persia is a troublesome business, for during its progress thousands of wasps are attracted by the luscious smell of the fermenting must. Persian wine, then—at all events, Shiraz wine—is pure and cheap, and all who have tasted it acknowledge that it is extremely good. Shiraz, too, is famed for its bulbuls (nightingales) and its sweet-smelling moss-roses.—*St. James's Gazette.*

LIVER COMPLAINTS.

DR. KING'S DANDELION and QUININE LIVER PILLS (without Mercury.)
THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered Liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.
In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.
Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London.
Specially valuable Pills for residents abroad and traveller.

TARAXACUM and PODOPHYLLIN—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, headache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine. Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6d. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

LOCKYER'S SULPHUR HAIR-RESTORER will darken grey hair, and in a few days completely bring back the natural colour. The effect is superior in to that produced by an instantaneous dye, and does not to ure the skin.

LOCKYER'S SULPHUR HAIR-RESTORER is the best for restoring grey hair to its former colour. It produces a perfectly natural shade, and is absolutely harmless. Recommended for destroying scurf and encouraging growth of new hair.

LOCKYER'S SULPHUR HAIR-RESTORER.—No other hair-dressing is requisite. Large Bottles, 1s. 6d. Sold by Chemists, Hair-dressers and Perfumers in London, and throughout the world.
Lockyer's is equal to any of the high-priced preparations. Sold by TREACHER & Co.

SULPHOLINE LOTION.—An External Means of CURING SKIN DISEASES. There is scarcely any eruption but will yield to "Sulpholine" in a few days, and a moment to fade away even if it seems past cure. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders that have plagued the sufferers for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalcules which cause these unsightly, irritable, painful affections, and always produces a clear, healthy, natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d. Made by J. PEPPER and Co., London. Sold by TREACHER & Co.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates, this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and develops the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections and in wasting disease, scrofulous tendencies, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by Chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition. Sold by TREACHER & Co.

DR. DE ROOS'
CONCENTRATED GUTTÆ VITÆ OR VEGETABLE LIFE DROPS.

THE alchemists of old spent years in endeavouring to find out the means of transmuting the baser metals into gold, but in vain. It was, however, reserved for a physician of the 19th Century to make a far more valuable discovery in occult science—the result of deep research into the arcana of Nature's mysteries—which is here offered to the world; and the pleasing results of a quarter of a century, during which time this wonderful medicine has been tried in every quarter of the globe, all corroborate the most sanguine of the inventor's hopes. Thousands of voluntary testimonials from grateful patients, testify to the fact that from this remarkable tonic alone, new life has been imparted to numbers of debilitated individuals; and it is not too much to say that hundreds of persons are at the present day in full enjoyment of their mental and bodily powers—in t rough good health—who previously were confirmed hypochondriacs, had been given up by the faculty as incurable, and left to drag out the remainder of their existence a misery to themselves, and a continual anxiety to their friends.
This great life-reviving medicine gives vitality and strength to the most shattered constitutions. It not only strengthens the system but purifies the blood, and promotes a healthy circulation of the fluids, thus imparting strength and tone to the nerves, enlivening and invigorating both body and mind. It greatly improves the appetite and restores the digestive powers, whilst for dyspeptic persons it is unrivalled. Those who (from long residence in hot climates) suffer from langour and relaxation, as also all persons going to the East or West Indies, should provide themselves with this important article of health.
Youth and age equally participate in the mire-colour effects of this wondrous medicine, for whether the body be debilitated in early life, or sinking under the advance of years, a few doses will speedily afford assurance of returning health, by giving tone to the muscular and nervous systems, and brough the organs of digestion, renovating the whole constitution. To the young it affords health, strength, and spirits, in place of lassitude and debility; while to the aged and infirm it assuredly furnishes great relief and comfort, by gently and safely invigorating the whole corporeal frame; and although it is not put forward as imparting immortality, it will certainly gild the autumn of declining years, and, in all cases, calmly and serenely protract the close of life. For females of all ages, as also for delicate children who cannot take cod-liver oil, the Guttæ Vitæ will be found a great boon—being far superior in its strengthening properties, and at the same time so pleasant to the palate that it can hardly be called a medicine. To married persons, especially, this preparation will prove invaluable; giving strength and vigour in place of lassitude and incapacity for exertion. Price, 11s. and 33s. per bottle. The large size contains sufficient for four weeks.

PAINS IN THE BACK, GRAVEL, LUMBAGO, RHEUMATISM, GOUT, DISEASES OF THE KIDNEYS AND BLADDER, STRICTURES, &c.

DR. DE ROOS'
COMPOUND RENAL PILLS

Are justly celebrated all over the world as the most safe and speedy remedy for the above dangerous complaints, Discharges of any kind, Stone in the Bladder, and diseases of the Kidneys and Urinary Organs generally.
These celebrated Pills are an infallible remedy in the most obstinate cases. By their use alone many thousands are annually restored to health, and the agonies of gout and rheumatism may now be considered a voluntary affliction, as no one need suffer these excruciating torments if they will only have recourse to these Pills, which are confidently recommended by the proprietor as the only real specific; whilst for weakness across the loins, sandy or other deposit in the water, and in all cases of renal or urinary disturbance, they are, indeed, unrivalled. They correct acidity of the stomach, promote the functions of the liver and kidneys, thereby preventing stones in the bladder, &c. Many complaints, long supposed to be nervous, often arise solely from contamination of the blood with certain impurities which should have been carried off by the kidneys. Thousands of testimonials from grateful patients attest their marvellous efficacy. In packages, 1s, 1½d., 2s. 9d., 4s. 6d., 11s., and 33s.

THE MOST WONDERFUL PILLS IN THE WORLD.

DR. DE ROOS'
PILULÆ VITÆ OR VEGETABLE LIFE PILLS

which speedily, and almost magically, remove pain and disease of whatever nature, restore cheerfulness to the spirits, vigour to the body, and strengthen all the organs on which health and life depend: they do not contain a particle of mercury, but are purely vegetable; and for all affections of the liver, flatulency, bile, sick headache, dizziness, loss of appetite, lowness of spirits, the sensations of fulness at the pit of the stomach, pains between the shoulders, and the distress arising from indigestion and general debility they will be found of unexampled efficacy. They act mildly on the bowels without pain or griping, impart strength to the stomach, promote a healthy action of the liver, clear the skin, remove sallowness and pimples, purify the blood, brace the nerves, and marvellously invigorate the whole system. Price 1s. 1½d., 2s. 9d., 4s. 6d., 11s., and 33s. per box.
Every package of Dr. De Roos' preparations bears the British Government Stamp with the words—"WALTER DE ROOS, London," in White Letters on a Red Ground, by order of Her Majesty's Honourable Commissioners, without which none can possibly be genuine. DR. DE ROOS' world-famed Medicines may be obtained of Messrs. TREACHER & Co., Limited, Bombay, Byculla and Poona; B. S. MADON & Co., Bombay; B. PHILLIPS & Co., Bombay & Poona; H. IMPORTANT CAUTION.—The public are respectfully informed that DR. DE ROOS' Pills are not sold in *loose* quantities, but only in packages, at the aforementioned prices, intending purchasers are specially cautioned not to be deluded into buying *so-called* "Guttæ Vitæ" or "Renal Pills," but in every case specially to ask for (and accept no other but) DR. DE ROOS' "Guttæ Vitæ" or DR. DE ROOS' "Renal Pills."
IMPORTANT TO YOUNG MEN.—Debilitated and nervous sufferers should read the "Medical Adviser," by DR. DE ROOS, on secret abuses, nervous debility, depression of spirit and confirmed melancholy, too frequently traceable to certain pernicious habits acquired in early life. Price one Rupee of any of the Agents or DR. DE ROOS Medicines.

WITH the continued importations of Spirits under the name of WHISKY made from common raw grain, and the difficulty the consumer has in discriminating between the genuine and spurious article, the demand during the past few years that has existed for Whiskies is abating, and GOOD BRANDIES are again gradually asserting their former position, so much so that in England at the moment it is more difficult to BUY GENUINE BRANDIES than it is to SELL them.

CHOLERA PILLS
CERTIFICATES.

DEAR SIR,—I have much pleasure to give this my written testimony as to the great value of your Cholera Pills. My second daughter aged six, got cholera about 4 a.m. on the 20th August, 1881. As I had no faith on the allopathic system in the treatment of this disease, I would not call in Dr. Rahim Khan, Khan Bahadur, my family medical adviser, but cause the child to be treated by my friend Babu Jogobhundhu Sen, an amateur homœopathic practitioner of some repute. The disease rapidly took a serious turn; no medicine would avail, and about 7 in the morning the child was in the collapse state. Dr. Birj Lal Ghose, Rao Bahadur, who out of friendship came to see me at that moment, pronounced the case hopeless. At this critical time some friends who had gathered round me advised me to try as a last resource your pills which had earned a name by curing some neighbouring patients. You were kind enough to come over without delay, and the medicine administered about 8½ a.m. Purging and vomitting ceased almost immediately after, but no other sign of improvement was apparent till the evening. I strictly followed your injunction, and gave the child nothing but what you had directed. Dr. Birj Lal once more came in the afternoon and was still incredulous. But thank Heaven, the child gradually rallied, and was pronounced out of danger by the next morning. Your medicine was not given a second time, though the sago diet and the boiled medicinal water were continued for three days together. The child passed a natural stool on the fifth day, the first time since she was out of danger.
I firmly believe that your pills are wonderfully efficient in cholera. As you would not charge anything for them or your attendance, even your enemies cannot ascribe to you unworthy motives for administering the same.
Accordingly I am always ready to give my testimony for what it is worth, and you are at liberty to use this letter in any way you please.
Wishing you well,
Yours faithfully,
Lahore College, 19th April, 1882. S. B. MUKARJIE

"THE PIANOS FOR INDIA"

The experience of nearly thirty years proves that
S. ROSE AND CO'S
SYMPATHETIC GRAND SQUARE PIANO
is, par excellence, the best suited for the climate of India.

WE GUARANTEE EACH PIANO. { "This piano was awarded a first-class certificate and medal of the Calcutta Exhibition." } WE GUARANTEE EACH PIANO.

S. ROSE & Co., have supplied many hundreds of their noted Sympathetic Grand Square Pianofortes to residents in all parts of India. No one instance has occurred of a "Sympathetic" having given way; of course the action and mechanism will wear; but S. ROSE & Co., have seen "Sympathetics" which, after twenty years' use, have, after the entire action has been renewed, been as rich and beautiful in tone as when quite new.
All parts of the instrument have been studiously cared for in the manufacture; the external case being of solid mahogany, with ornamental fret work at the openings. In regard to tone and touch it is a first-rate instrument.
The term "Sympathetic" was first used to designate the character of tone. The term has been made use of by others without scruple, and many purchasers have paid for "Sympathetics" of a most doubtful quality, and which are not entitled to the name; but are merely inferior imitations.

Cash price, in solid Mahogany Case ... ... Rs 850

GANDY'S AMERICAN COTTON BELTING

TO those having the use and care of machinery it is of the greates importance to know what is the best belting to use to transmit power To such and to all the answer is, USE THE GANDY BELT.
It has imitators, and this is the strongest proof possible, that is an article that is worth spending cash on to imitate. If it were a worthless article, or one that had not been VERY SUCCESSFUL, no one would go to the expense and trouble to imitate it. Imitation is the strongest form of flattery, and those who imitate the "GANDY" belt are proclaiming to all belt users, that the GANDY belt is the best that has ever been put before the public.
The GANDY belt has acquired such a deservedly high reputation, that belt users, afte having tried all others, come back to Gandy and declare that, notwithstanding the difference in price, they find it to their advantage to use the American Cotton Belt made, only by the inventor and patentee

PHOSPHODYNE Extracts on the CURATIVE POWERS of Dr. LALOR'S Phosphodyne.

"It is a necessary constituent of all Healthy Nerve Structure, and is of great service in conditions of Low Nervous Vigour. It is peculiarly efficient in sustaining the energies of persons about to undergo any unusual exertions either physical or mental, involving severe trial of the powers."—O. C. GIBBS, M.D.
"The Brain and Spinal Marrow contains Phosphorus largely, and it seems to me that the Phosphodyne supplies the deficiency when it is necessary. I have known cases of great physical prostration favourably relieved by this preparation."—H. B. MILLARD, M.D.
"It is a powerful assistant to the digestive process."—R. APPLETON, M. D.
"It assists the natural changes of the Blood."—DR. DICKSON
